

# Pacific Northwest Coastal Ecosystems

BI 353 (CRN 73452)

4 CREDITS, TR 8:00 AM - 1:50 PM

A field-based introduction to the diversity of ecosystems of the Pacific Northwest coast. Biological and physical processes affecting the distribution, structure, community composition and physical features of these systems are explored through a variety of lectures and field trips. Ecosystem services and human impacts are examined. Prerequisites apply. Course info subject to change. Visit [classes.oregonstate.edu](https://classes.oregonstate.edu) for more information.

Additional times (earlier mornings) as part of the field component of this course. Possible field trip activities as assigned by instructor.

**Additional fees:** FT96 - \$30.00 Flat Fee

**Instructor:** Sarah Henkel
