Course will focus on learning “hands-on” techniques for rearing dulse seaweed, oyster larvae, salmonids, microalgae as well as for water quality measurements. Field trips to local shellfish and fish hatcheries will provide additional learning opportunities. Course subject to change. Visit classes.oregonstate.edu for more information.

**Week 1:** Online lecture M-F 9:00 AM to 10:00 AM. Lectures will be recorded for students who can’t attend during this time.

**8/22 to 9/2:** On-site M-F: 9:00 AM to 2:00 PM, HMSC ED Wing Room 31.

**Instructor:** Christopher Langdon, chris.langdon@oregonstate.edu
